I made this in ten days' time in an oil investment in Texas. Others did as well. Many made from \$10,000 to \$500,000 but invested more capital to get these results and Dayton prairie are flust described. Barating one to five acres either the flust described from the flust described for twenty-flust will get oil. Land on Spindle Top worth \$100,000 on a care.

Foreign Markets Dull and Export Demand at a Standstill.

Foreign markets were weak and draggy and there was a very light export inquiry. Receipts were a trifle in excess of those on the corresponding day last year and most outside traders were on the selling. You Don't Need X Rays, But Common Sense

TO PROVE THAT THE STOCK OF

Cranite Mountain Oil Co. at 10c IS PEER OF ALL OIL INVESTMENTS.

HERE ARE FACTS-NOT HOT AIR:

Granite Mountain is issuing checks to shareholders for the 4 per cent dividend declared April 1st. Granite Mountain has sold 460,000 barrels of oil at six times the price received by

other Beaumont companies, and this one contract guarantees 35 per cent dividend. Granite Mountain has additional contracts that cover a period of two years, and pro-

vides, with the 460,000-barrel contract, enough income to guarantee 55 per cent in dividends! Granite Mountain has only \$150,000 capital, which is honest and conservative. Beware of overcapitalized corporations. Granite Mountain is an honest stock.

Granite Mountain will pay another dividend in May, and dividend checks will be issued to every shareholder; no matter how large or how small. We do not believe in the practice of some companies who compel small shareholders to wait until their dividends reach \$2. We will

send you your dividend check for 15 cents as readily as if it was \$15. Order stock now at 10 cents, before the advance. Write for prospectus to our sole fiscal agents for the United States,
